

ROCKGRIP™

6K & 15K ANCHOR SYSTEMS

NEVER PATCH . . . NEVER RUST

RockGrip™ Mechanical Anchoring Gripper System.

(Shown with 6K SuperTie™ Smooth Rod)

- Less expensive than alternative systems.
- Allows single sided wall forming
- Quick & easy to use.
- No waiting for epoxy to cure.
- Requires less anchor depth.
- Eliminates plugging & patching.

US Patent #7,819,388

SUPERTIE vs SNAPTIE

Reduced Labor Costs – No plugging, patching or sacking.

Reusable Parts – Simply strip hardware from form, reuse over 100 times.

Superior Finishes – Eliminates rust and corrosion. Strips flush to concrete.

Variety of Colors – We offer colors to blend with the wall. Custom colors available.

Reduced Inventory – **ONE** SuperTie™ fits any wall width.

* WARNING: RockGrip™ is only authorized and guaranteed when used with our 6K (ultimate tensile strength system) and our 15K (ultimate tensile strength) systems.
NOTE: Always figure a 2:1 safety factor when using RockGrip™.
