

Fiberglass Form Ties

SuperTie Fiberglass Smooth Tie

The premier fiberglass tie system used since 1987 for projects requiring the smallest architectural tie (.308) for minimal visibility.

- Superior architectural finishes
- Board formed concrete
- Form liners
- Smallest diameter
- Job built forms/modular formwork

*Also available .500" dia. (S.W.L. 7,000 lbs)

SuperThread Fiberglass Threaded Tie

Newest fiberglass threaded tie (3/8") designed to replace rusty metal snap-ties. For any application requiring clean finishes with no patching or plugging.

- General forming applications
- Exceeds standard snap-tie strength
- Metal snap-tie replacement
- Retaining walls
- Compatible with most form systems
- Commercial/industrial projects
